

DEM Sports new Tube Laser Cutter

DEM Sports new Tube Laser Cutter
is now up and running

PRECISION CUTTING

It's a **T2 Bodor** 3 kw machine. It can take a **9.3m length** of material, a maximum weight of **300kg**, and can cut mild steel, stainless steel and aluminium, using gas (oxygen or nitrogen).

It can cut a maximum diameter of **220mm** (tube) and **160mm x 160mm** (square hollow section), a minimum for both of **10mm** and a maximum wall thickness of **15mm** for mild steel.

It can cut angle, channel sections and structural sections.

DIGITALLY CONTROLLED

SLOTS AND HOLES

We're happy to accept one-off jobs or multiples and to work with free issue material.

We offer a delivery service within a 30-mile radius of Welney.

Contact the office on 01354-610353 or email production@demsports.com
